Subject: Haskell Lake planning

Hi Dee and Kristen. Checking in to see what you think about the proposed technical get-together. 23-24 February is still open, if we can come together on the immediate questions and critical items on the agenda.

LCD has put together some answers to your requests for info on Bristol report, model files, and EPA funding. Do you want us to collect and send on the requested info, or do you want LCD to send it to you directly? Jenny and I don't have to be in the middle of all exchanges, unless you prefer it that way.

While we're clarifying roles and responsibilities going forward, please let me know, as soon as you can, whether you want Jenny and me to act as the formal facilitators for future meetings. We're happy to do so, but if you prefer someone else in that role, LCD will need to identify an experienced facilitator and get them under contract. This will take a little time, so sooner is better if we're going that way.

Hope all is well.

Vr,

Anthony Greenwater, Director
